

Are you looking to bring **more investment** to your **small town**?

Whether you're looking to attract more tourism, bring in new business or entice people to relocate to your community, we have proven tools that can help!

FACT Before visiting, starting a business, or relocating to your community - folks are checking out your community's website. And by website, we don't mean the website that shows when council meetings take place and garbage is picked up.

FACT People look to the internet to get a sense of the places they are interested in. They want stories, experiences, great pictures, and videos. They want to know what the community has to offer in terms of attractions, businesses, cultural and recreational opportunities. They want to know if it's a place worth coming to.

FACT For the most part, people don't visit municipalities or counties; they visit towns. Yes, towns are part of a bigger community, municipality or county - but each small town has something unique to offer, and need to shine on their own!

WE CREATE TOOLS THAT HIGHLIGHT AND BRING MORE PEOPLE TO SMALL TOWNS.

CURRENT OFFER: **Create a uniquely branded website for your community for as low as \$295/month.**

If you manage more than one community, multiple websites can be managed under one umbrella.

Check out a great example at www.ExploretheShores.ca.
